

Pro-Shipper™ Services

WMG is your gateway to logistics expertise for radioactive materials and radioactive waste management. Our Pro-Shippers™ are experts who enhance the efficiency and quality of your radioactive material/waste management with hands-on experience that seamlessly integrates with your operations, providing supplemental on-site staff support.

A Pro-Shipper™ provides more than just services; they offer 24/7 access to the WMG Team, ensuring you benefit from over 200 years of collective experience. WMG Pro-Shippers™ have been successfully deployed to the following nuclear licensed facilities:

- | | | |
|---------------------------|--------------------------|------------------|
| 1. Arizona Public Service | 7. Calvert Cliffs | 14. Indian Point |
| 2. Grand Gulf | 8. Peach Bottom | 15. San Onofre |
| 3. Perry | 9. Palisades | 16. Hatch |
| 4. Three Mile Island | 10. River Bend | 17. Westinghouse |
| 5. Hope Creek | 11. Salem | 18. Browns Ferry |
| 6. Fermi | 12. James A. Fitzpatrick | 19. Fort Calhoun |
| | 13. Beaver Valley | |

Qualified Personnel

Our Pro-Shippers™ are available for projects with a minimum requirement of 1 month to as long as the project demands. We have two categories of Pro-Shippers™:

1. The Individual Expert;
2. The Individual Expert plus our REACH™ detector (requires for the site to already subscribe to RADMAN™).

Each Pro-Shipper™ upholds the highest standards with:

- A minimum of 10 years specialized hands-on experience in radioactive materials/waste characterization and shipping.
- Up-to-date qualifications including NRC I&E Bulletin 79-19, DOT 49 CFR subpart H, and IATA Dangerous Goods table 1.5 training.
- Full certification to operate all WMG software at your facility.
- Proficiency in the current domestic and international frameworks
- Use of our REACH™ hand-held characterization tool that seamlessly integrates with RADMAN™.

Nothing Mitigates Risk Like Experience
