

The logo features the word "RADMAN" in a large, bold, blue sans-serif font. To the left of the text is a red graphic consisting of several overlapping, curved lines that resemble an atomic model or a stylized flower. Below "RADMAN" is the text "Reporting Portal" in a smaller, blue, sans-serif font.

RADMAN

Reporting Portal

Power-Packed Insights at your fingertips

Introducing the RADMAN™ Reporting Portal:

At WMG, we understand the value of data-driven decision-making and the importance of user-friendly tools that facilitate meaningful analysis. Our Reporting Portal is built on cutting-edge technology, ensuring a seamless user experience while delivering powerful reporting capabilities.

Unlock the full potential of your data with the new RADMAN™ Reporting Portal. Designed to provide comprehensive analytics and advanced reporting capabilities, our portal empowers you to make informed decisions, optimize performance, and stay ahead in our industry. With a range of features including tabular reports, ad-hoc querying, customizable dashboards, benchmarking tools, and advanced analysis, the RADMAN™ Reporting Portal is your ultimate solution for data-driven success.

Tabular Reports and Ad-hoc Querying

Access powerful tabular reports and conduct ad-hoc queries to extract valuable insights. Seamlessly export data to Excel and PDF formats for further analysis and sharing.

User-Managed / Customizable Dashboard

Tailor your reporting experience with user-managed and customizable dashboard pages. Create personalized layouts with drop-in reports, charts, and benchmarks to visualize your data in a way that suits your needs.

User-Defined Charting

Unleash your creativity with user-defined charting capabilities. Utilize data from tabular reports and queries to create dynamic charts that showcase trends, patterns, and performance metrics specific to your requirements.

Benchmarking Tools

Stay ahead of the competition by leveraging benchmarking tools. Compare your performance metrics against industry standards or within your fleet, gaining valuable insights that enable you to identify areas for improvement and drive operational excellence.

Advanced Analysis Tools

Coming soon in the second half of our development cycle, our advanced analysis tools will revolutionize your data analysis process. Analyze samples, distributions, characterizations, and shipments with ease, uncovering hidden patterns and gaining deeper insights into your operations.
